July Health Focus: UV Safety Month

For the month of July, the Parish Nurse Council is highlighting UV Safety Month. UV or ultraviolet radiation is invisible to the naked eye, but can damage DNA and cause sunburns. Practice sun safety year round with three simple steps: seek shade when appropriate, wear sun-protective clothing, and apply a broad-spectrum, water-resistant sunscreen with an SPF of 30 or higher. For more information and resources, please see the flyer on the bulletin board.
